

Design by
King and Miranda

ISSIMO pure 10-12®

Code 01175

PORTABLE LOCAL AIR CONDITIONER

FEATURES

- Cooling power: 10.000 - 12.000 BTU/h**
- Rated cooling capacity: 2,4 - 3 kW***
- Energy Efficiency Class in cooling mode: A
- Sound power level: DB 61
- Rated efficiency energy ratio: EER 2,7 - 2,9***
- Ecologic gas R410A
- No tank: automatic condensate removal
- Multi-function remote control
- LCD Display
- 24h timer
- Adjustable flaps: to direct the air flow where desired
- Pull-out cord for easy transport
- Castors

94 PORTABLE AIR CONDITIONERS

FUNCTIONS

Ventilation only function

Dehumidification function

Auto function: adjusts operation based on ambient temperature.

Sleep function: gradually increases the temperature setting and guarantees reduced noise level for greater comfort during the night.

A CLASS

Excellent performances in A class of energy efficiency class.

COMPACT TECHNOLOGY

Constant attention to detail, to the design and engineering of components has made it possible to reduce overall dimensions to a minimum making **Issimo** one of the smallest portables on the market, less than 50 cm high.

CUBE POWER

Maximum power in minimum size.

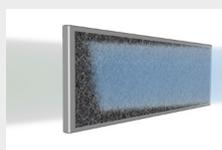

PURE SYSTEM 3

Triple filtering system for cleaner air:

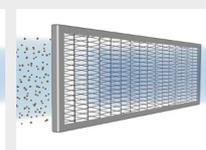

- Activated carbon filter (removes bad odours and inactivates any harmful gases that may be present)
- HEPA filter (High Efficiency Particulate Air Filter: traps particles with diameter

in the micron range)

- Photocatalytic filter (sterilizes the air removing a high percentage of bacteria and viruses).

Activated carbon.

HEPA filter.

Photocatalytic filter.

* In-house lab tests on Olimpia Splendid range
** 35°C/80%UR
*** According to regulation EN14511
