

EVERYTHING YOU NEED IN A SINGLE SYSTEM

Managing annual climate comfort and domestic hot water production with a single system allows you to simplify your home system, save on space and reduce energy consumption while increasing efficiency.

NEXYA MULTI ALL-IN-ONE

INCREASED EFFICIENCY THROUGH HEAT RECOVERY

Compared to traditional air conditioning and DHW production systems (separate management), parallel operation the recovery – in cooling mode – of the heat normally expelled by the external unit to produce DHW in the storage tank. Heat recovery can be total or partial, depending on the thermal power required by the boiler and the number of internal units active in providing climate comfort.

- Up to 3 rooms with air conditioning
- High wall installation
- DHW production

Olimpia Splendid is an Italian company that, since 1956, has been designing, manufacturing and marketing products for Air Conditioning, Heating and Air Treatment. The Home of Comfort payoff describes our commitment to creating innovative, environmentally friendly products with an unmistakable Made in Italy design. Our goal is to satisfy, in every season, the needs of our customers worldwide. Comfort at Home is the result.

NEXYA

Mono and multi-split
air-to-air heat pump

A COMPLETE RANGE TO CREATE DIFFERENT SYSTEMS

The Nexya range is designed to meet a variety of intended uses (domestic or professional) and installation needs, with mono and Multi-Split solutions that include both internal wall units and cassette, duct or ceiling units.

Available in mono, dual, triple, quadruple and quintuple versions, they allow you to air condition up to 5 rooms with a single external motor.

MONO-SPLIT RANGE

NEXYA ENERGY E

HIGH INDOOR QUALITY OF AIR

The evaporator's high temperature sterilisation cycles prevent the formation of bacteria; the integrated ioniser neutralises the polluting agents dispersed in the air; the triple filtration (anti-dust, activated carbon and cold catalysts) remove any impurities.

- High wall installation
- Wi-fi system included
